Above all, WIBAT APPLIQUE means COMFORT

- Quick and easy installation
- Press a single button and all your shutters close
- With WIBAT APPLIQUE, you can stop the shutters in half-open position
- In a new construction or a renovation, WIBAT APPLIQUE means you can keep your existing shutters and is suitable for all types of swinging shutters. Presence simulation when combined with a timer (option)
- WIBAT APPLIQUE fits on single and double shutters
- Available with wireless and wired remote control
- French product, individually tested and with a 5-year warranty
- Stay out of bad weather – No more morning and evening chore!
- WIBAT APPLIQUE opens your shutters without the need to open your windows, significantly reducing heat loss!
- Now you can reach those inaccessible shutters (e.g. worktop, bath tub)
- WIBAT APPLIQUE is equipped with obstacle detection to ensure personal safety: when there is an obstacle, the shutter returns to its initial position.
